WHERE IS THE BROOM?

RIDE REPORT

MURPHY HOT SPRINGS-JARBRIDGE: *What a weekend. We never did get an exact count on how many folks were there. Between the 2 clubs we filled three campgrounds. Lots of great riding. The great thing was there were multiple rides everyday so folks had a choice of where they wanted to go. There were rides to the Bruneau River, rides to Jarbidge Area, Rides to pictographs, and rides to mines. The Saturday ride to the Altitude Mine had 14 machines with 18 riders. We had a great time visiting the mine, seeing the Palomino Princess, the destruction caused by fire, and the finale of riding in the rocky creek. Ride was about 9 hours and 57 miles long, but a lot of smiles and hooting and hollering clear to the end.. Great bunch of people on this ride. Be sure and check out the pictures on the website. www.mvatvr.org*

September 27th, 28th, Three Corners ride. Fun Weekend. Sat we had 30 machines with about 40 riders for the ride to three corners. We broke the ride up into 3 groups of 10. We used the orange flags so everyone could stay spread out and help minimize the dust issue. Ride turned out to be about 54 miles not counting the elevation changes, lots of up and down across the ridges. One downhill now known as pucker hill got a few peoples attention. Lots of fall colors made for a beautiful ride. The neat thing was again the diversity of our riders the youngest was about 12 and we had three in the 75 years young category. Lots of ladies and families. What a feed at the cookout on Saturday Night. Thanks to all the fantastic cooks!!!
On Sunday a group of about 14 took a short ride the Pike mountain area. Apparently Dennis Cogswell decided to check out the toughness of a Can Am. We now know they will take a beating and a summersault and keep on ticking. Luckily Dennis was not seriously injured. Check out the pictures on the web site.

Fairfield show me ride: September 20

Stan Mai and Joe Steffens spent the day riding with Mike Detorri and Ann Frost from the Fairfield Ranger District. We were invited by the folks at the Fairfield District to show them some of the trails that were closed on the new travel plan that we felt should be reopened. It was a very enjoyable day. Apparently the Forest Service had connections that we do not have because it rained the night before and that morning. Just as we were getting ready to go riding the sun broke out for a beautiful day of riding with **no dust**. We felt it was a very productive day. One of the closures we had complained about was a signing error. The closure to the mine was an oversight and that road has been reopened. We had some very good dialog and hopefully they now understand more fully why we would like to see some of the previously open roads and trails reopened to motorized use. They have some very good projects in the works that should be completed within the next year or two that will enhance riding opportunities. We told the folks at the District that our members would be willing to help out in anyway we can to speed the process of getting these projects done. We look forward to working with the folks at the Fairfield District on future planning of motorized recreation and appreciate the fact that they took time to listen to our concerns.

Our bylaws state that we will nominate and elect a new board of directors at the November meeting of the membership. We will be having elections at the November meeting. We would love to have more nominations than available positions. If you have an interest in becoming more involved in the future of the club a position on the board of directors would be a good way of doing this. If you have an interest or just have questions please call Stan Mai at 733-5981

All members and guests please read:I/we fully understand that ATV activities involve risks and dangers of serious injury up to and including death. I fully accept and assume all such risks and all responsibility for losses, costs and damages I may incur

To everyone that was in Stan's group at the Jarbidge ride we would like to say a very special Thank you. This was a beautiful day and exciting ride for everyone involved. I was fortunate enough to not only enjoy this ride with the club but also initiate my dear friends into this ATV club. I would like to thank everyone that was along on this trip for your assistance and most importantly your kindness. This is truly a family group and I believe the best ATV club around. I would also say that we probably eat better than any group out there. For all of you that missed the cookout, it was delicious. The quality of people in this group is perhaps the biggest reason I am consistently bragging to new people about our club. I am proud to be a part of this organization and again Thank you for a wonderful ride and your true friendship.

As has been mentioned before one of the great things about this club is the diversity of its members. We have folks of all age groups and skill levels. In some cases we have two and three generations of the same families. This diversity is what helps make our club what it is, but along with diversity comes some problems. It seems after every ride some one will say to me, I wish the ride was shorter, I wish the ride was longer, I wish the ride was slower, I wish the ride was faster, I wish the ride was easier, I wish the ride had more challenge, I wish we had more breaks, I wish we had less breaks. Club rides are a compromise. We try and make it fun for everyone. If it is not exactly what you were hoping it would be, we apologize. We will try and do better in the future. If some one has a short easy ride they would like to lead that would be great. If you have ideas about how we could do better please contact one of your officers or board members.
