MVATVR DISCLAIMER

All members and guests please read:

I / we fully understand that ATV activities involve risks and dangers of serious injury up to and including death. I fully accept and assume all such risks and all responsibility for losses, costs and damages I may incur as a result of my participation in the activity. Rides are open to current MVATVR members and invited guests.

MVATVR CLUB RULES & GUIDELINES

The Magic Valley ATV Riders (MVATVR), Inc. would appreciate you being considerate of others and observing the following rules/guidelines while participating in club activities. Obviously, any actions that are unlawful or unsafe are prohibited.

1. Pets should be kept on a leash of no longer then 6 feet during any rides, campouts or other MVATVR events. Please be a responsible pet owner and respect the rights of others.
2. Idaho State Law states that being under the influence and/or consuming alcohol or illegal drugs while operating an OHV is illegal and therefor will not be tolerated by MVATVR, Inc.
3. Generator use should be with consideration for others in camp and a recommended quiet time from 10:00 PM to 6:00 AM needs to be observed.
4. By operating your machine in a safe responsible manner, waiting at intersections and corners, you can insure that fellow riders will not be left behind and everyone will have an enjoyable ride.
5. Being a responsible member means, abiding by state motorized laws and obeying regulations for the area you are riding in, not disturbing wildlife, respecting the land and any private property that is crossed and closing any gates you open.
6. Please conduct yourself in a proper manner and strive not to be offensive to anyone, and respect the rights of others.

PAST CLUB RIDES

Historic Toana Freight Road

Ride Leaders: David Fait (phase 1) & Kent Oliver (phase 2)

April 2

A gorgeous sun filled day greeted the Magic Valley ATV Club for the Toana Road Crossing ride. A large number of riders participated in this historical ride into the past. Starting off the day, we navigated around a band of Woolies who were enjoying the green Springtime vegetation.

Soon after stopping at a local water hole, we visited with a rancher asking about moving our caravan of ATVs through his property. After lunch in the canyon crossing site, the group split up, some rode off into the sunset, others headed North. It was a great ride with a great bunch. Some of our group thought they saw a horse drawn wagon coming over the canyon rim...

Cedar Creek Ride

Ride Leaders: Dixie Best & Mark Ehresman

April 24

We had a beautiful day in the desert to do a club ride. There was no dust on the trail. We also were blessed to see a few wild flowers out already. 11 machines were in attendance for the ride. The reservoir was very pretty and all of the rocks were great. The group had a lot of fun.

Without naming anyone, a club member from Burley showed up for the ride and guess what? He for got his key to his machine!

Toana Freight Road Extended Ride

Phase 2 by Kent Oliver

After a nice informative ride by David Fait, we stopped for lunch along the picturesque Devil Creek crossing. After lunch, about 16 machines of the original 33 in the group split off to take on the challenge of finding another route through the desert to our staging area near Balanced Rock.

We continued south, southwest towards Coonskin Butte. Here we located the old jeep trail that allowed us to climb up to the top of the butte. From the top of the butte, we had awesome view of the snowcapped mountains of Northern Nevada. After a short break we started our trek northward in an attempt to find routes back to Balanced Rock that were less traveled. It did not take long to put ourselves on old two track roads that had not seen vehicular traffic for a long time. Several times, we stopped and compared GPS displays to find where a road or valley crossing was.

The challenge was well worth the effort. We saw a small band of deer and many antelope. As we road across the desert and through the various valleys it gave us a sense of what the pioneers experienced as they found their way.

Those who participated in the extended ride ended up riding approximately 52 miles that day.

UPCOMING RIDES/EVENTS

North Rim Cleanup

Saturday, May 14

Drive just North of the Perrine Bridge. After crossing the Perrine Bridge going north on Highway 93 take right at the new stop light and we will be at the first parking area as you turn off Hwy. 93. We will be working with the local jeep club and other folks to clean up all trash that has accumulated over the past year. And yes, there is a lot of trash!

There are some folks who would like to turn this area into a non-motorized area. It is very important that we show the public that we care enough about this area to spend a day cleaning up. This is a very popular OHV use area and the closest riding area to Twin Falls. The Jerome County Commissioners and BLM personnel will be on hand.

Start time is 8:00 AM. Doughnuts will be served.

It will probably take until early afternoon to finish the project. Do not feel that you have to stay the whole time; whatever you can do will be appreciated.

Pizza will be furnished for lunch at noon.

Garbage bags will be provided by BLM and loaders will be on sight. All participants must wear long pants, have leather gloves, and be over 16 years of age. No open-toed shoes. These requirements are for your safety. There will be 2 large loaders and 2 dump trucks available. If you have a dump truck that you would like to bring that would be great.

If you can bring your ATV that would be helpful, but is not required. If you have a trailer you can pull behind your ATV, that too, would be helpful in transporting trash to the loaders.

Please plan for any kind of weather. Bring water, sunscreen, and rain gear. Bring your smile. There is a good possibility the news media will be there so lets have a good turnout. In the past we have had the most participants and it would be great if it happened again. It is important that we participate to help keep this area open to OHV use.

Pagari Bridge Ride & Campout May 6,7,8

Ride- Saturday & Sunday, May 7 & 8

Ride Time: 9:30 AM

Ride Leader: Jerry Kriegh-312-5235

The ride should be about 50 miles long, mostly level 2 dirt roads through the desert.

Camping will be across the bridge along the Little Big Wood River and fishing is available.

Go past Richfield on Hwy 26 about 7.5 miles. Turn right at the sign for Pagari Bridge. The meeting location is about ¼ mile down the road from Hwy. 26. Please bring firewood.

THIS RIDE WILL BE WEATHER DEPENDENT SO PLEASE WATCH YOUR EMAILS FOR UPDATES.

FROM THE PRESIDENT, KENT OLIVER

URGENT INFORMATION!

Polaris® Industries Voluntarily Recalls Certain RZR 900 and 1000 Off-Road Vehicles

MINNEAPOLIS (April 19, 2016) – Polaris Industries (NYSE: PII) jointly announced with the U.S. Consumer Product Safety Commission, today, that the company is voluntarily recalling certain RZR 900 and 1000 off-road vehicles manufactured since model year 2013 due to reports of thermal-related incidents, including fires. Detailed information about the recall is available at www.polaris.com/rzr-recall.

Polaris conducted a thorough investigation to pinpoint the root causes and put forward a comprehensive solution to address them.

"One of our foremost guiding principles is Safety and Ethics Always," said Scott W. Wine, Chairman and CEO, Polaris. "We know that the foundation of a good ride is a safe ride, and we have been proactive, aggressive and thorough in putting forth a plan to get our vehicles repaired and give us – and our customers – confidence in the safety of our RZR vehicles."

All affected vehicle owners will be asked to contact a dealer to schedule a complimentary service appointment, which should take approximately one hour. Polaris is working quickly to source the necessary parts – and is allocating parts daily to dealers as they become available. Dealers will schedule appointments subject to parts availability.

"We are working day and night to inform our customers and dealers and to obtain the parts needed for the repairs we identified in our comprehensive analysis," said Wine. "We apologize for the inconvenience to our customers as we work to ensure all the systemic thermal risks we identified are eliminated from our vehicles."

Polaris has already begun implementation of its Corrective Action Plan and has made manufacturing updates in new-production vehicles. Polaris also plans to include a warning on new-production vehicles instructing riders not to carry fuel and other flammable liquids in their vehicles, and cautions against carrying flammable liquids in previously produced models.

Thinking of You.....

This section of the newsletter is dedicated to members that are going through difficult times, such as illness, surgery, medical issues, or loss. Please feel free to submit names to be included in this section (with permission of the member, or course).

We are thinking of you:

- Tom Glass- his wife, Carol, passed away March 2
- Dennis Cogswell- he has been in the hospital
- Kent Oliver- his dad passed away recently

If you would like to submit a member's name for this section, once you have obtained their permission, please contact Jessica Minor, newsletter editor. Email:

2016 Magic Valley ATV Riders Member Ride Schedule

The following is a list of rides that members have agreed to host. These folks are going riding on the posted dates and are inviting their friends in the MVATVR to join them. All rides are subject to cancellation. Every effort will be made to keep everyone up to date on changes. Please, if you have not given us your email address and you have one, it would really help us notify you in the event of changes to have your email address. Weather cancellations or postponing rides may occur; if weather looks bad call the ride host to see if the ride is going to happen.

All members and guests please read: I/we fully understand that ATV activities involve risks and dangers of serious injury up to and including death. I/we fully accept and assume all such risks and all responsibility of losses, costs, and damages I/we may incur as a result of my participation in the activity. Rides are open to current MVATVR members and invited guests only.

TRAIL DIFFICULTY GUIDE

Level 1, Beginner:

Gravel or dirt surfaces that are relatively flat and wide. Generally wide enough for an ATV to pass a full-sized vehicle. May be dusty but are relatively smooth with no rocks or roots protruding more than three inches above the surface. Ride distance will be short, speeds very slow.

Level 2, Advanced Beginner:

Mild ups and downs, some narrow, mild rock, mostly roads and jeep trails, minor off camber. Two-wheel drive ok.

Level 3, Intermediate:

Loose gravel, sandy, rocky or rutty surface. May have short sections that are narrow. Can have blind turns, switchbacks, steep or roller coaster grades, some off-camber side hills, minor drop-offs, ruts and frequent changes in riding surfaces. Occasional obstacles may strike the frame. Four-wheel drive may be needed depending on conditions. Pace of ride will be a little faster, distances and length of ride will be longer.

Level 4, Advanced Intermediate:

Rocky surfaces, sharp turns, switchbacks, steep grades, narrow passages, low overhangs, ledges and large rocks. Can be slippery and muddy when wet. May have tree stumps, limbs or other debris. Machines with low ground clearance may strike or high center on obstacles. Four-wheel drive highly recommended.

Level 5, Expert:

Very rocky, steep, off camber, high water crossings, large ruts. Large obstacles in trails, narrow with big drop offs. Four-wheel drive required, may need winch.
