Island Park Campout Report

First, thank you club members for making the trip to Henry's Lake State Park. For some of us, early arrival started July 19 through July 22, there were 14 RV campers plus 3 guest RV campers for a total of 26 club members and 6 guest. We had two social gatherings; Monday, bring your hamburger or hot dogs to grill with a little potluck and Wednesday, Aaron furnished pulled pork as the main meal with potluck items.

Rides were taken to various locations, including; Cliff Lake, Continental Divide trail, West Yellowstone and Two Top Mountain trail, Big Spring and Sawtell Mountain Lookout.

Saturday, July 20, 5 machines traveled to Cliff Lake to explore the area affected by 1959 Yellowstone Earthquake. We were unable to get to the campground where the 2 boulders remain that took the lives of a father and mother, while their 3 sons were left unharmed. Much to our dismay, Cliff Lake has been commercialized, so we turned around and rode back to camp. Sunday, July 21, 8 machines rode Continental Divide trail. We enjoyed the scenic beauty of the green hillsides and a large array of mountain flowers in bloom.

Monday, July 22, while waiting for the rest of the club members to arrive, the day was spent driving to Quake Lake area and then we drove to Virginia City for lunch and ice cream. That evening was open grill night with a small potluck dinner.

Tuesday, July 23, we rode the back roads to West Yellowstone for lunch at Gushers. After a short shopping spree, Aaron led the ride which took a 50" trail over Two Top, then Aaron included a ride to Big Spring.

Wednesday, July 24, we held 2 different rides. Ron Mothershead led the ride of 9 machines to Sawtell Mountain Lookout and Aaron led a ride of 6 machines over Continental Divide trail. The day ended with a pulled pork and potluck dinner. In conclusion, over all the week was filled with good company, delicious foods and a variety of rides.

The Fine Print

I/we fully understand that ATV activities involve risks and dangers of serious injury up to and including death. I fully accept and assume all such risks and all responsibility for losses, costs and damages I may incur as a result of my participation in the activity. Rides are open to current MVATVR members and invited guests.

Trail Difficulty Guide

Level 1 - Beginner: Gravel or dirt surfaces that are relatively flat and wide. Generally wide enough for an ATV to pass a full-sized vehicle. May be dusty but are relatively smooth with no rocks or roots protruding more than three inches above the surface. Ride distance will be short, speeds very slow.

Level 2 - Advanced Beginner: Mild ups and downs, some narrow, mild rock, mostly roads and jeep trails, minor off camber. Two-wheel drive ok.

Level 3 - Intermediate: Loose gravel, sandy, rocky or rutty surface. May have short sections that are narrow. Can have blind turns, switchbacks, steep or roller coaster grades, some off-camber side hills, minor drop-offs, ruts and frequent changes in riding surfaces. Occasional obstacles may strike the frame. Four-wheel drive may be needed depending on conditions. Pace of ride will be a little faster, distances and length of ride will be longer.

Level 4 - Advanced Intermediate: Rocky surfaces, sharp turns, switchbacks, steep grades, narrow passages, low overhangs, ledges and large rocks. Can be slippery and muddy when wet. May have tree stumps, limbs or other debris. Machines with low ground clearance may strike or high center on obstacles. Four-wheel drive highly recommended.

Level 5 - Expert: Very rocky, steep, off camber, high water crossings, large ruts. Large obstacles in trails, narrow with big drop offs. Four-wheel drive required, may need winch.

1. Pets should be kept on a leash of no longer than 6 feet during any rides, campouts or other MVATVR events. Please be a responsible pet owner and respect the rights of others.
2. Idaho State Law states that being under the influence and/or consuming alcohol or illegal drugs while operating an OHV is illegal and therefore will not be tolerated by MVATVR, Inc.
3. Generator use should be with consideration for others in camp and a recommended quiet time from 10:00 PM to 6:00 AM needs to be observed.
4. By operating your machine in a safe responsible manner, waiting at intersections and corners, you can insure that fellow riders will not be left behind and everyone will have an enjoyable ride.
